

NEHA NALLAPU

Maryland, USA | 9408439384 | nehanallapu03@gmail.com

Education:

Master of Health Information Technology (GPA: 4.0)

Jan 2023 – May 2024

University of Maryland, Baltimore County (UMBC)

Bachelor of Dental Surgery (GPA: 3.8)

Oct 2016 – Oct 2020

Mamata Dental School, India

Skills

Compliance, Privacy & Regulatory

- HIPAA and PHI handling
- Business Associate Agreements (BAAs) and data-sharing documentation
- Policy and SOP review
- Consent documentation and release controls
- Audit preparation and regulatory documentation support

Patient Safety & Quality

- Incident reporting and follow-up tracking
- Patient safety event review and documentation checks
- Root cause analysis (RCA) and corrective action tracking
- Patient experience and survey analysis
- Complaint, grievance, and feedback trend review
- Audit readiness and workflow compliance monitoring

Data, Reporting & Tools

- Advanced Excel: PivotTables, dashboards, lookup formulas, conditional formatting
- SQL: joins, filters, validation checks, summary reporting
- Power BI: KPI dashboards, drill-throughs, slicers, trend visuals
- Tableau
- EHR audit logs, Reporting Workbench/Clarity exposure, Eaglesoft

Collaboration & Operations

- Cross-department coordination
- Training material updates and staff communication
- Survey creation and response tracking
- Leadership reporting and presentation support

Experience

Aniva Dental, Laurel, MD

Compliance and patient safety Specialist

December 2024 – Present

- Support compliance and patient safety activities by maintaining trackers for incidents, documentation issues, privacy concerns, and follow-up actions across operational teams.
- Review patient safety events, complaints, and near-miss issues to ensure incidents are documented clearly, routed to the right owner, and closed with appropriate follow-up.
- Monitor patient feedback, survey responses, and satisfaction trends to identify recurring concerns related to care experience, communication, wait time, and service quality.
- Help design, organize, and analyze patient surveys and internal feedback tools, then summarize findings for leadership using Excel dashboards and trend reports.

- Maintain records related to data-sharing agreements, BAAs, consent documentation, and internal SOPs to support privacy compliance and contractual requirements.
- Participate in compliance review meetings focused on risk, privacy, access controls, documentation standards, and safe handling of sensitive health information.
- Coordinate with analytics and operations teams to confirm de-identification and minimum-necessary practices are followed before health data is shared externally.
- Prepare audit-ready documentation for internal reviews and third-party requests, including policy files, trackers, incident summaries, and training-related records.
- Update training content and reference materials for staff on secure data handling, documentation expectations, and compliance-related workflow changes.
- Build and maintain Excel and Power BI trackers to monitor incident volume, survey trends, participation data, documentation gaps, and compliance follow-up status.

G Technologies

Clinical Data Analyst Intern - Compliance

May 2024 – August 2025

- Supported compliance-related data validation by reviewing source data from healthcare reports and checking for missing values, duplicates, and inconsistent documentation fields.
- Helped prepare datasets and trackers used for quality reporting, audit follow-up, and operational compliance reviews.
- Assisted in reviewing measure definitions and reporting requirements to ensure internal dashboards and summaries aligned with expected logic and documentation standards.
- Built Excel and Power BI reports to monitor performance indicators, audit findings, and completion status of quality and compliance-related activities.
- Participated in compliance review discussions by preparing summaries on data trends, reporting gaps, and documentation issues needing follow-up.
- Worked with analysts to reconcile data discrepancies between source files, reports, and dashboard outputs before final distribution.
- Helped organize documentation used for internal audits and reporting reviews, ensuring files were complete, version-controlled, and easy to retrieve.
- Supported survey and patient feedback analysis by consolidating responses, identifying recurring themes, and summarizing trends for team review.

Golden Dental Care Clinics

Compliance Coordinator

February 2022 – December 2022

- Conducted internal audits across clinical and operational units to check documentation completeness, consent compliance, privacy practices, and readiness for accreditation reviews.
- Supported mock drills and inspection readiness by reviewing SOPs, infection control logs, patient rights documentation, and department-level compliance records.
- Reviewed incident reports involving patient safety and behavioral health-related concerns, ensuring documentation was complete and follow-up actions were tracked.
- Helped coordinate reporting and documentation for sensitive cases by gathering records, maintaining timelines, and supporting committee review workflows.
- Maintained privacy and consent checklists to reduce risks related to verbal disclosures, whiteboard use, misplaced files, and incomplete patient documentation.
- Worked with nursing and pharmacy teams to verify medication labeling, expiry checks, crash cart readiness, and documentation trails for higher-risk items.

- Delivered staff reminders and training support on documentation standards, privacy in shared spaces, and incident reporting expectations.
- Consolidated incident logs, documentation errors, ID mismatches, and workflow deviations into structured trackers for RCA and follow-up review.
- Prepared monthly compliance summaries using Excel trackers and presentations for leadership review.
- Supported public health documentation and reporting tasks, including registry updates, immunization records, and required government forms.

Mamata Dental Hospital

Dental Surgeon

January 2020– December 2021

- Provided chairside patient care while maintaining accurate treatment documentation, consent records, and case notes in line with clinic documentation standards.
- Ensured treatment plans, prescriptions, and clinical entries were complete, timely, and properly recorded to support continuity of care and audit readiness.
- Followed infection prevention and sterilization protocols, maintained procedure-area documentation, and supported routine monitoring of clinical safety practices.
- Participated in patient education and follow-up communication to improve treatment adherence, satisfaction, and continuity of care.
- Reviewed patient histories, allergies, and medication details before procedures to support safe treatment planning and risk awareness.
- Supported clinic workflow improvement by helping organize records, standardize documentation habits, and reduce delays caused by incomplete charting.
